WIDE**

## **STG GLOBAL**

# **HL22 HOOKLIFT**

Hooklift trucks are versatile additions to any fleet. Whether you are in the mining, infrastructure or waste management industries, being able to rapidly, safely and efficiently pick up bins or change body configurations is a handy option. Hooklift trucks are especially useful to waste management companies as they make collecting large bins extremely easy: no more messing about with chains and swing arms.

Fitted to a rugged truck chassis (your choice, of course), the HL22 system will revolutionise your waste collection regime. As an addition to your waste collection fleet, the HL22 will add another level of sustainability, efficiency and adaptability to your business. As always, the crew at STG Global have gone all out to design and build a machine that is tough, reliable and simple to use.

## **HEALTH AND SAFETY FEATURES**

- Fire extinguishers
- 3rd party camera systems and DVR recording
- Lighting (work lights, revolving beacons)
- Soft unloading at end stroke for safe operation and increase longevity of product
- Fast tipping/Unloading with regenerative fast speed (22 seconds vs 65 seconds on a conventional hook lift)
- Rear roller – safely load containers in narrow conditions

## **QUALITY SERVICE AND TRAINING**

We're known for fast, quality service and have the infrastructure to place our team and vehicles where they're needed. We provide the best after-sales support within the industry, and our nationwide network provides global expertise on a local scale. Our units are also tracked by GPS, which allows us to anticipate servicing needs in real-time.

We carry a full range of spare parts and offer repair and maintenance packages at competitive rates. With dedicated service centres and STG partners available to service you Australia-wide.

We provide comprehensive training to help you operate and maintain your truck correctly and get the most out of our state-of-the-art technology. We also offer on-demand refresher training programs.
